## PROFESSIONAL EXPERIENCE

### DevOps Engineer | February 2025 – Present

Hasob Integrated Services

- Manage and maintain production servers, ensuring 99%+ uptime and optimal performance across multiple environments.
- Deploy and test web applications for diverse client use cases, implementing automated CI/CD pipelines to streamline development workflows.
- Monitor system performance and troubleshoot technical issues, reducing deployment time by implementing standardized testing procedures

### Frontend Web Developer | 2023 – 2025

AsteriskRD (Remote)

- Developed and maintained company websites from initial concept through version 2.0, creating responsive and user-friendly interfaces.
- Collaborated with cross-functional teams to deliver web solutions that enhanced user experience and business functionality.
- Implemented modern web technologies and best practices, ensuring scalable and maintainable code architecture.

### Technical Supervisor | April 2024 – October 2024

National Communication Commission – Emergency Call Center (NCC-ECC)

- Supervised server room operations and maintained critical computer systems used for emergency call reception, ensuring 24/7 system availability.
- Provided technical support and system maintenance, minimizing downtime and ensuring reliable emergency communication services.
- Handled emergency calls during peak periods while maintaining technical oversight, demonstrating versatility in operational support.

### Electronics Trainee | November 2022 – April 2023

Electronic Development Institute (ELDI), Awka

- Developed proficiency in basic electronics and solar installation techniques, including load calculation and system design.
- Designed and constructed electronic circuits with minimal supervision, progressing from basic to complex circuit development.
- Successfully completed final year project by developing a digital lab trainer, demonstrating practical application of learned concepts.

**Machine Installation Trainee | 2017**

De-Sky Allied Bottling Company

- Assisted Chinese engineering team in factory machine installation and setup processes during 3-month industrial training program.
  - Operated manufacturing equipment and learned machine maintenance procedures, gaining hands-on experience in industrial automation.
  - Supported quality control processes and documentation, contributing to smooth factory operations setup.
- 

**EDUCATION**

**Nnamdi Azikiwe University, Awka | 2019 – 2023**

Bachelor of Engineering in Electronics and Computer Engineering.

**Metallurgical Training Institute | 2016 – 2018**

Diploma in Mechanical Maintenance Engineering.

---

**CERTIFICATES**

**COVID-19 Marketplace Robot (CMPR) Hackathon | 2021**

IEEE HAC Technical Presentations & Hackathon Series

**Fundamentals of Digital Marketing | March 2022**

Google Digital Workshop
